Alexandria Gazette

FRIDAY EVENING, FEBRUARY 4.

THE FRENCH DETECTIVES -It is to the credit of the French detectives, too, that their esprit de corps is ex remely high, and that they have intense pride to the honorable traditions of the force. Their salf respect is the stronger because they have never been digraded into mouchaids, or political spies. B as are better than others, but the general standard of intelli gence is high. Incumerable inclances might be adduced of their shrewdoess and promittude, of their paios aking pa i nce, of their devotion and eadur one in attaining the ends.

A weap n or a tool, a j may (monseigneur) or fa'se k y will be carried round every iron worker's ie Paris uptil some clew is obtained, just as Canter visited all the shops of the chaon iers to discover who had sold the "two pounds of butter" inscribed upon a scrap of paper he had picked up on the scene of a great crime. The decective must be a master of ex pedients and shifes. One who had run his quarry to earth found how playing billiards in a crowded room, and to hav arrested him there might have led to an alternation, perhaps to a conflict, both of which the police officers are strictly erioned to avoid. Our detective decided instantly upon a plan, and rushing up to his victim claimed him loudly as a nephew.

"Come out, my dear boy, come out, I have some excellent news to give you from your deer auot," he cried, and led the other, varily protesting, into a passage where the capture was quietly made. Another had pursued his game across the frontier, and came upon the man he wanted as he was calmly fly fishing, some way ont of the town. To arr at him there would have been difficult, po-sibly dangerous, and the officer would not run the risk. Instead of that he entered into conversation expressed delight at coming acc as a comparison, and presently asked ben to di e. The same night the culprit was todged weshoot any econole in a Belgian maison d'arret.

GOOD REASONS FOR THE DOCTOR'S FA17H. MONROE Gs., March 13, 1880.

We have for twelve months been prescribing ("Swift's Syphilitic specifie") in the treatment of Syphilis and many other diseases for which it is recommended, and the results have been months of the state of the sta most satisfactory, not having been disappointed in a single instance. We think, for all diseases it is recommended to cure it stands without a peer, and that all the medical profession will sooner or later, bu forced to acknowledge it in the treatment of spyn-lis as a sine qua non.

ALEXANDRIA GAZETTE.

-1881-

The ALEXAND'SIA GAZETTE, begun in 1799, is the oldest newspaper in the State, and the only daily published in Northern Virginia It has survived, with few exceptions, all the public presses in America which saw with it the dawn of the minateenth contury. It lives, too, not in decay, but full of life and vigor, giving all the news, telling the truth without fear, favor or affection, trenching on the privacy of no man's home, but full to the brim with all public information, and giving daily honest judgments of public men and public measures.

It furnishes the news telegrams of the New York Associated Press and of Beuter's European agency, being, with but three exceptions, the only paper between Baltimore and Richmond that is thus connected with the great fourt has of the world's naws

With the coming year all the long tried and improved methods of making a standard newspaper will be continued, with such additional facilities as past experience justifies the proprietor in believing will add to the espacity of the Gazatte to serve as readers. It expects to render faithful service to the city, the state and the country by a candid criticism of men and events in the interest of the people of the Commonwealth of Virginia.

To meet all the demands upon it, the Gazette will be made a WASHINGTON and RICH-MOND NEWSPAPER, as well as an ALEX-ANDRIA JOURNAL. The Richmond and Washington news of past years has left little to improve, but yet greater effort will be made to insure absolute perfection in these departments,

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Common wealth which nature has bound to Aiexandria by the curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of railways, will be assiduously

The Business and Commercial columns of the Gazette will be filled with the earliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible.

The Catt'e Markets of all the leading points of the world whose rates affect this market will be quoted, and regular statements of the Baltimore, Georgetown, Washington and Alexandria sales of cattle will appear.

The Flour, Grain and Produce movements will be noted daily, and the sales of the Alexandria and neighboring markets given with accurse; and dispatch. The Grocery and other markets will receive constant attention, and the money or stock markets of the country epitomized for its columns, full details being given to all stocks, &c, which find investors in this section of the country.

The advertising columns of the Gazette offer inducements which experience has shown to afford greater returns for a small investment than any other which can be made.
